

MY ABUNDANCE IS AN OPEN DOOR

NEW ONLINE PROGRAM (3 DAYS)

THE LUNAR ECLIPSE

3 MARCH 2026

BACKGROUND

After the Solar Eclipse and new Fire Horse Year on 17th Feb
and then the Neptune/Saturn conjunction on 20 Feb,
we now have the concluding Lunar Eclipse.

And what a ride it has been.

And this is only the beginning.

The fast moving energy of Fire is igniting.

Bringing freedom.

Connection between the Seen and the Unseen,
and at the same time, a huge inner process activating
We are all processing our deep past disempowerment.

A very heavy, personal process.

Preparing to release some very deep, old ancestral levels of victimhood
So that we can let it all go on the Lunar Eclipse.

THE GREATEST DISEMPOWERMENT

And what is the greatest disempowerment?

For all of us? The whole of humanity?

Probably money, no flowing abundance.

RESTORATION

Well it is time. For it all to be restored.

On 16 March (when a group and I will actually be in Chile/Easter Island to
celebrate the March Equinox with the Moai!)

3iAtlas - yes it is still very active - will be closest to Jupiter.

The planet of expansion and abundance.

WHAT IS THE DIFFERENCE BETWEEN GREED AND DIVINE DESIRE?

BACKGROUND

The difference between greed and a divine desire for abundance is INTENTION.

A divine desire for abundance comes with an intention:

so that I can serve more, give more.

Become more of who I truly AM.

And yet we have been programmed to believe that to desire more is selfish, ungrateful.

What a lie!

Abundance is Infinite, there is no end.

It is not limited.

There is no scarcity or lack.

Yet with our belief systems we have closed most opportunities to access the true infinite abundance that is our birthright!

THE TIMING AND OPPORTUNITY OF NOW

On 20 February we went through an incredible upgrade.

Neptune and Saturn at the same place - zero degree - in the fire sign of Aries.

And we also went into the New Chinese Year of the FIRE horse on 17 Feb.

The day of the Solar Eclipse.

SPIRITUAL PURPOSE OF FIRE

What is the sacred purpose of the element of fire?

Fire is the bridge between the spiritual and the physical.

It connects, It activates.

And so to have the two planets representing the spiritual (Neptune) and physical (Saturn) IN A FIRE SIGN brings an unbelievable opportunity for MANIFESTATION.

Because the fire energy of Aries is there to assist us to anchor and manifest the spiritual energy of abundance into a physical vessel called us AND OUR BODY.

THE UPCOMING LUNAR ECLIPSE

This Lunar Eclipse is the completing energy after the Solar Eclipse.

And so we will ON THAT DAY do our sacred ritual (3 March)

Releasing deep patterns of disempowerment -
and activating future Abundance!

Celebration.

I am very excited about the Infinite possibilities accessible to us.

Lets do it

Elizabeth
