## THE EARTH

# A planet in transition

Hi everyone! we are living on a planet in transition. So much is accelerating in the material world and so much is being exposed. What do we do?

The answer lies - truly- by going within. We literally are able to change the world by changing our own energy. Fed by our beliefs, emotions and perceptions of what is real. As I am about to leave for Easter Island (or Rapa Nui as the local people call it) I am guided to share these amazing insights from a book published in the nineties called **THE CELESTINE PROPHECY** by James Redfield. Never has this been more relevant for our world!

With lots of love. Keep your awareness focused on a completely New View of Life. Yes, we are doing it! Elizabeth

*Ps at the end of the magazine are details of an amazing trip in September to Morocco for the Equinox. It is going to be an incredible adventure! With us spending a week in the Atlas mountains and desert. A truly unique experience. Come and join me and ask the Earth to help you manifest it!*

## THE CELESTINE PROPHECY - ANCIENT WISDOM FROM THE INCAS FOR THIS TIME:

**THIRD INSIGHT** A new view of life. The third insight provides a new understanding of the physical world and learning to perceive what used to be an invisible type of energy. The human perception of this energy first begins with a heightened sensitivity to beauty. When we appreciate beauty and uniqueness of things, we receive energy. Then we get to the next level of feeling with our Heart (LOVE), we can send the energy back by just willing it to be so.

**FOURTH INSIGHT** The fourth insight exposes past control and domination. It shows us how every human has been taught to compete for energy and so create power struggles. Eventually we humans will see the Universe as one dynamic energy that can sustain us. But if we disconnect from this source, we start to feel weak and insecure and lacking. And so we seek to steal it from others. This creates unconscious competition and underlies all human conflict in the world.

**FIFTH INSIGHT** An alternative source of energy exists. The fifth insight shows that the shortage of energy can be remedied when we connect with the Higher Source of the Universe. It can provide all we need, if we can only open up to it. We grow and so evolve to a higher and higher vibration.

**SIXTH INSIGHT** The sixth insight tells us about control dramas. If we discover our control drama (by going back to our childhood and early family experiences), we can find the higher truth (the silver lining) beyond the energy conflict and it can tell us who we are, the path we are on and what we are doing- our spiritual purpose or mission. And once we bring it completely into consciousness, our lives can take off!

**SEVENTH INSIGHT** The seventh insight talks about the process of consciously evolving oneself by staying alert to every coincidence, every answer the universe provides for us. Dreams show us what we are not realising/missing by comparing the story of the dream to our life at that moment. Daydreams and intuitive thoughts guide us, but we need to become the observer and ask why did they come to us? By practising control of habitual thoughts, fear images can be halted as soon as they come and replaced by positive images. Soon the mind will become quiet and then any real messages or warnings can be listened to.
