THE EARTH

Development

Hi everyone. I am sending this out early, because we truly are in an extraordinary month of July and I would love you to be fully aware of it. One astrologer called it our biggest month of development. And there are huge possibilities open to each one of us.

The essence of this opportunity is a huge upgrade in our energy systems. Our bodies are being given so much energetic assistance to move beyond old limitations. Including shame. It has been like cracks in our aura, fuelling addictions and many other self-destructive behavioural patterns that never seem to go. Time after time we are caught up in it.

But take Heart, this is the month when all the energy we have been losing can be recovered. Simply by believing it to be so. And choosing it to no longer be part of our future. To claim what we deserve. For ourselves and for this planet.

So below I am also including a post I did on Social Media about the change. It is not a question of “understanding” it all. See what stands out for you and follow that. Claim your own personal path of inner healing. #grab JULY!

With much love and new excitement for the future. Elizabeth

THE MONTH OF JULY 2026

Many call this our biggest month of development.

In a truly momentous year.

The French astrologer, Andre Barbault (who predicted the pandemic and sadly passed before he could witness it) - named this month a 'Relaunch of a Civilisation'.

FIRST ASPECT

The first aspect is what most astrologers are talking about:

A minor grand trine between the 3 outer planets - Pluto in Aquarius, Neptune in Aries and Uranus in Gemini.

Unbelievably all at the same degree in their sign (4 degrees).

Creating a huge positive aspect for our planet and that can help you to create miraculous change in you and your life.

SECOND ASPECT

The second aspect is the opposition between Pluto (in Aquarius) and Jupiter in Leo.

Even though Pluto went into Aquarius on 24 January 2024 and that was a huge cosmic event announcing an undeniable ascent into the Aquarian Age, this aspect is now FULLY activating Pluto.

Showing us that only if what has been hidden is revealed, can we access the new Abundance.

Pluto digs deep and brings the fallen into the light and Jupiter magnifies it.

THIRD ASPECT

The third aspect involves the planet Chiron going into the sign of Taurus on 19 June.

Bringing incredible opportunities for the healing of the deepest wounding we received when our planet was hit by an asteroid and we as a human race received intense trauma. That is still present and keeps us locked in fear and survival.

(it is now widely accepted that the cataclysm of our last mini Ice Age was caused by an asteroid impact in the middle east region as well as northern Europe.)

FOURTH ASPECT

The fourth aspect is missed by most astrologers. It involves the upgrade we received from 3i/Atlas.

Its path through our solar system completed in March this year and involved the upgrade of relationships (Venus), action (Mars) and Jupiter (Abundance & expansion).

And the unique planetary configuration now happening in July is doing very much the same thing.

Venus went into the sign of Leo (aspecting Pluto in Aquarius), Mars into Gemini (being at the same place as Uranus) and then Jupiter went into Leo.

Giving us individually and as a humanity a "second chance" to bring our relationships, actions and abundance into a much higher frequency of love.

FIFTH ASPECT

And the fifth aspect?

This is the phenomenal aspect.

It brings it all together.

It involves the star system CYGNUS

In our milky way and carrying the image of a Swan.

The ancient Egyptians also knew it was the path that our soul travels after death to return to Source (the Galactic Centre).

But crucially, energies in this constellation are able to ACTIVATE OUR THIRD EYE.

And so, for example, Cygnus was active after the Mini Ice Age (you can see that at Gobekli Tepe in Turkey that is very specifically aligned to Cygnus) -

AND THE ENERGY IS BECOMING ACTIVE AGAIN RIGHT NOW!

Giving us all the ability again to (through the third eye) fully access fifth dimension.

And when we are able to access fifth dimension, we have access to all dimensions!

It literally is the gateway for our ascension.

CONCLUSION

The psychic ability of everyone on this planet is being given a huge boost, making it possible to go far beyond we have ever been.

Use your intention to actively receive the abundance of this monumental upgrade of July.

MANTRA/DIRECTION: I AM READY TO RECEIVE THE GRACE AND BLESSINGS OF JULY. And so it is
